Dear President Obama,

I would like to congratulate you on winning the election well actually there are a couple other things I would like to congratulate you on.

I can't believe that you are the first black president of the U.S.A. I like that you have high expectations and feel able to meet them.

I hope you have peace within your heart to share with the world through your leadership. I hope you have the wisdom to help us through rough times. And may your compassion to help heal the hatred of difference.

May all that you do lead us in the right way. And may your Presidency be one of the best in history.

P.S. If I could get your autograph that would be great!

Best of luck, Gillian Maurer ☺

Dear Mr. President,

~~US people~~ We need to stop global warming before the world melts. Please talk to other Presidents and people like Presidents. Try to stop global warming.

Also pollution, one day we will not be able to breathe with out one of those air things. What I'm trying to say is we need to stop it or ~~our~~ world will perish. Pollution is bad and ~~slotering~~ slaughtering innocent animals.

Here are a few things I know that are true

1. almost everyone is happy that your President
2. WE need to have a new President (to stop the war).
3. ONCE your President you'll have less time to spend with family.

I hope number three can be fixed.
you'll be a great President!

sincerely,
Pixie freeman

Dear Mr. Barack Obama,

First I want to congratulate you on the election, it was a dazzling win! But I think before you do anything else you should fix our pollution problem. Our world piece by piece. The ice is melting at a fast pace now.

There is more than just that, there are money problems too. Products are getting more and more expensive. Prices of gas is getting better, but the prices for living are just too high.

We should keep money within our nation. Corporations are owning all business. Consumers are being stopped from buying some products because of prices, it's shutting down stores.

And if you could stop the war in Tibet that would be great. Please save The Doly Lama. He can reincarnate only so many times.

Sincerely, Isabella -
Victory Probersts.

Dear Mr. President Obama, 1/23/09

I feel that the first thing that you should be aware of is, our~~e~~ gas prices. I think that 30.00 dollars is a little pricey for only 15 gallon of gas.

I think that we need to give more people health care then what they have. A lot of people in Africa and China need better health care!

I hope you have a great four years of being president!

P.S, If I could get your autograph that would be great!

Dear President Obama,

I hope you can save our marine life. People are dumping sewage into the water, killing our marine life. I hope you can do this.

Our ~~can~~ country needs this Obama.

I hope you can give this country an economy. Money is being stolen, buried and thrown away. Some countries only have four hundred dollars. People need money!

Can you please help scientists develop a car that runs on water. Tobacco, factories and oil are poisoning our air, killing our animals. We need cars that run on water, Obama please.

sincerely,
Max Ashburn

Dear President Obama,

I would like to inform you that I am concerned about the ice melting in the north and south pole just like you.

Just think about all those animals like, polar bears,

Penguins, seals, and others not being able to survive in

their home because of the

global warming. I think it's a great idea to use green

technology (Wind, Water, Sun).

Someday I hope that the ice will freeze back and the animals will all once again thrive.

Dear Mr. President

My name is Solomon House. I live in Asheville N.C. We saw you speak at Asheville High. It was a very exciting day.

I would like to congratulate you for winning the election against Sen. McCain. I stayed up all night long watching it. We were glad you won.

I would like you to build more national parks so the animals will not get hunted and the people can have fun.

Best

Dear President Obama,

I am glad that you were elected for President. I once drove past the White House, it was beautiful. I also watched the Inauguration on TV.

My hope for the world is that someday we will live in peace, knowing that no terrorists will come and destroy our town. Family members who have sent a loved one out to war hoping that he or she will come back. When I grow up I would like to become President and make a difference to this nation.

Sincerely,
Amanda Wood

P.S. Can I have your autograph?

Dear, President Barak Obama

I think the first thing you should do is deal with that awful stinking war!

It would be so much fun to go meet your little girls. How old are your girls? Is it hard to travel around with bodyguards all day long?

Can you please try your best to stop pollution, it is killing all those poor polar bears!! In Asheville N.C. where I live it is going slowly from a lovely town to a ~~very~~ yucky big city and I want it to stop!! I think I am going to wear the dress your girls wore it's from J-Crew crew cuts it's brown with a puffy bottom and a big brown ~~bow~~ bow.

Your friend, Chloe

Josephine Dotti

p.s. Can you send me an autographed picture, that would be great if you could!

Dear President Obama,

I think you are a very good president. Because I know you are going to low taxes and lower gas prices. I think you should because a whole lot of hardworking people shouldn't pay so much. And I ~~got~~^{have} some questions for you first. What is your moms name? What is your favorite food? Do you like cats? do you like dogs? Do you like video games? What's your dad name? what your daughters names? and I all most forgot congratulation Mr. Barack Obama

My name is Annabelle Jones. I live in Asheville, NC. I am 10 years old. I watched the inauguration yesterday.

I think it is a good idea to fix the economy, because I think losing jobs by force isn't a good idea. Also I think it is a great that every kid should have health insurance so every kid will be happy and healthy.

Please fix the No Child Left Behind Organization because it isn't working at Isaac Dickson Elementary School and the students won't have to study as much. Can you help save energy so the ice will stop melting so the polar bear will have somewhere to live? I also think starting to withdraw troops from Iraq, because I think war isn't a good way to solve problems so people will stop killing each other.

I think it is amazing that you got elected to be the first African-American President. I hope

you can rebuild Ameirca.

Best wishes,

Annabelle

Jones

P.S. Can I please have your
Autograph?

Dear President Obama,

I am very glad you are president. What are you going to change in America? What do you think is one good that is going on here? When did you decide you wanted to become president?

Where did you live before you lived in Washington D.C.? How long ago did you move to Washington D.C.?

Is it fun to be president? Did you know you were going to be president before everyone else?

What was your job before you became president? If you could go anywhere in the world where would it be? If I could go anywhere it would be Asia. I am, once again, really really glad you are the president!

Sincerely,
Ella Castelloe

Dear Mr. President Obama,

You are now part of the American history! First African American president of the United States of America! You also have a lovely wife and two beautiful children. Mr. Obama I have some concerns. Now that you are president are you going to help people that are that are sick so they don't have to be stuck in the hospital? Are you also going to help the endangered species of animals so they don't die? Most of all, are you going to help the soldiers out of war so they can go to their families? My last question is can I have all 4 of your autographs?

P.S. Can we be pen-pals?

Sincerely,

Dear President Obama,

I need your help. My grandmother is 80 years old and still has to work because she doesn't get enough Social Security to live off of. Will you please fix it so that the elderly gets enough money on their checks so this doesn't happen. I feel it is very sad that a person that is 80 years and not in very good shape or in good health has to work because our government is not taking care of them correctly when it comes to finances.

I have a few questions for you. Can you answer them please?

1. Will you help schools that don't have enough money to afford things?
2. Will you help animals that might get extincted?
3. Will you help even kids cause their parents died have things that can help them live like meds, food, drinks, and clothes.

Can I please have your family's

~~my~~ autograph

Sincerely,

Channing Huntley

Dear Mr. President Obama,

I would like to congratulate you on becoming our 44th President. I hope you help protect our parks and forests, So the animals can have a place to live, and people can enjoy the trees and ~~beaut~~ beauty of our country. I hope in the next generation people will be able to enjoy the plants and trees. You will be a great president!

P.S. My mom and dad think taxes are too high. Will you lower them?

P.S.S. May I have your autograph?

Dear Mr President,

I am writing this letter to you because when I grow up I want to become president too!

I watched the Inauguration on T.V., and congratulations on the election I guess you really are the dream of Martin Luther King Jr.

Did you really write an essay about becoming President of the United States?

I think you should lower the taxes at least until the crisis ends. When I grow up I want to get into a really good college so I can become President.

And can you send back a sheet of paper with your name on it? Thanks!

Sincerely,
Jacob
Diehn

Dear Mr. Obama

What do you like about nature? Do you know about the program Enjoy it, Don't destroy it. My grandma and Laurel Valley do it in North Carolina.

This is something I thought of from Martin Luther Jr.'s speech.

Good luck, good job, and great speech. I am glad to see enter see a new glorious position in a famous place. Hope ~~you~~ you see a wonderful house in white. Please give your autograph sometime.
